Premier Kim Il Sung Receives Messages

Supporting Korean People's Just Struggle

Marshal Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea and Premier of the Cabinet of the Democratic People's Republic of Korea received telegrams from Norodom Sihaneuk, Head of State of Cambodia; the National Conference of the Party Core Elements in the Domain of Construction of Cuba; Eduardo Mondlane, President of the Central Committee of the Mozambique Liberation Front; and Masaharu Hatanaka, Representative Director of the Japan Council Against Atomic and Hydrogen Bombs. The telegrams condemned the U.S. imperialist aggressors for their open military provocative machinations against the Korean people and expressed full support for the just struggle of the Korean people in connection with the incident of "Pueblo," armed spy ship of the U.S. imperialist aggressor troops, which was captured by the naval vessels of the heroic Korean People's Army, while conducting espionage activities after intruding deep into the territorial waters of the Democratic People's Republic of Korea, according to recent KCNA reports.

Meanwhile, the Central Committee of the Workers' Party of Korea also received a telegram from the Central Committee of the Dominican Communist Party expressing solidarity with the just struggle of the Korean people.

Follows part of telegrams addressed to Premier Kim Il Sung:

Message from Cambodian Head of State

The Royal Government and people of Cambodia are enraged to hear that the U.S. warship "Pueblo" intruded into the territorial waters of the DPRK to conduct espionage activity.

The Royal Government and people of Cambodia denounce this new provocative act of the U.S. imperialists and extend warm congratulations to Your Excellency and the Korean People's Army which checked the activity of this U.S. warship infringing upon international navigation law and the sovereignty of your country.

I assure Your Excellency and the Korean brothers of our unshakable support in the anti-imperialist struggle for the respect for our most sacred national rights.

It is with a happy feeling that I am expressing our full solidarity once again with you in face of the threat of the United States.

Message from Cuban Construction Workers

The National Conference of the Party Core Elements in the Domain of Construction of Cuba which was held in Havana on Feb. 3 and 4, adopted the following message addressed to Premier Kim Il Sung and President Choi Yong Kun:

Together with the entire Cuban people, we Communist Party members, workers in the domain of construction, are watching with keen attention the incident of the seizure of the Yankee spy ship belonging to the U.S. Central Intelligence Agency in the territorial waters of Korea.

The brave and just action of the unit of the People's Army enjoys all the more absolute support and approval of all of us. The Korean people demonstrated once again their steadfast and uncompromising stand in defending revolutionary dignity, national sovereignty and principle by capturing the Yankee pirates.

The Korean people who are prepared fully and fear no aggression and threat of the imperialists and their stooges determinedly stood up against them. The Yankee's shameful defeat in the course of the incident, the failure of their attempt to use the United Nations once again as a tool for aggression and their complete exposure before the whole world patently prove that the stand taken by the Korean people is the only correct road.

By so doing, the Korean people under the guidance of their Party and Government gave a valuable lesson to mankind. The stand of the Korean brothers and the victory of their stand fill us with satisfaction and due pride. Therefore, we, Cuban Communists in the domain of construction who attended the National Conference between Feb. 3 and 4, unanimously decided to express our revolutionary, fraternal and active solidarity with you, Comrade Premier and Comrade President.

Message from Mozambique Liberation Front

Dear Comrade Premier,

The U.S. imperialists impudently ignore the sovereignty of other countries and try to impose the vicious domination of the American rule with bloodshed if necessary, once again trampling underfoot by force of arms the most elementary principles to be a compass guiding the relations among the peoples and states.

The imperialists began to use another method when their machinations ended in failure once again. As the resistance rose in the southern half of your country, the U.S. imperialists are increasing provocations and aggressive acts against the northern half.

The incident of the intrusion into the territorial waters of your country by the spy warship "Pueblo" of the United States which was meted out deserving punishment recently by the vigilance and militant spirit of the Korean People's Army is an aggression whose nature was laid bare.

To our surprise, we hear the aggressors say that they were attacked.

But, how can it be called aggression against the United States that the Korean People's Army seized the U.S. spy ship which infiltrated into the territorial waters of Korea, thousands of kilometres away from the territory of the United States?

Dear Comrade Premier,

The Portuguese colonialists are also perpetrating aggression in our country, saying that they protect the worth of man and our people against foreign aggression.

We know that the aggression of the colonialist and fascist Portugues Government against the Mozambique people cannot be perpetrated without the active support of the U.S. imperialists as is the case with other imperialists.

Dear Comrade Premier,

I, in the name of the Mozambique people, the Mozambique Liberation Front and its Central Committee, express our solidarity with the Korean people, the Workers' Party of Korea and the Government opposing the aggression perpetrated by the U.S. spy warship "Pueblo" and numerous acts of provocation and aggression of the U.S. Government against the Democratic People's Republic of Korea.

We are convinced that the Korean people under the guidance of the Workers' Party of Korea headed by you will mete out deserving punishment to the aggressors, finally liberate the whole country and achieve unification.

Long live the friendship between the Korean and Mozambique peoples.

Long live the liberation struggle of the Korean people.

Long live the solidarity of the Mozambique Liberation Front and the Workers' Party of Korea.

Death to colonialism and imperialism.

Independence or death, we will win.

Congratulatory Message to Marshal Kim Il Sung

From South Korean Revolutionaries and Patriots

South Korean revolutionaries and patriots sent a congratulatory message on Feb. 7 to Marshal Kim Il Sung, the great Leader of the 40 million Korean people, founder of the Korean People's Army and outstanding Leader, on the occasion of the 20th anniversary of the founding of the heroic Korean People's Army.

The message said that the South Korean revolutionaries and patriotic people are significantly meeting the 20th anniversary of the founding of the heroic Korean People's Army at a time when they are intensifying as never before the resistance struggle for national salvation against the U.S. imperialist aggressors and their lackeys, upholding the programmatic tasks set by Marshal Kim Il Sung, the respected and beloved Leader, in his report at the historic Conference of the Workers' Party of Korea and the 10 point Political Programme of the Government of the Democratic People's Republic of Korea.

In the name of the South Korean revolutionary organizations, armed guerrilla units and the entire South Korean patriotic people, it wholeheartedly extended highest glory to Marshal Kim Il Sung, the great Leader of our 40 million people, who founded the glorious Korean People's Army and has educated and reared it as revolutionary armed forces, each man being a match for a hundred foes, and led it always to victory and glory.

The message reviewed the proud militant path shining with victory and glory which was covered by the heroic Korean People's Army, the revolutionary armed forces of the Workers' Party of Korea, the direct successor to the glorious anti-Japanese armed struggle and defender of the interests of the entire Korean people and nation, over the last two decades under the pre-eminent leadership of Marshal Kim Il Sung, the Supreme Commander.

Educated and reared by Marshal Kim Il Sung, the respected and beloved Leader, and armed with the great revolutionary ideas and military-strategic ideas of the Leader, the invincible Korean People's Army not only defends with credit the socialist gains won in the northern half of the Republic but also gives immense inspiration to the South Korean revolutionaries and people, the message said.

The ever-victorious Korean People's Army, with its very existence and great might, exerts a big influence upon the development of the revolution in South Korea and firmly guarantee the independent unification of the fatherland and the nationwide accomplishment of the Korean revolution, and the South Korean revolutionaries and people take great pride in having in their country such great army of the revolution, army of the people and army of the nation as the Korean People's Army, it added.

The message continued:

Retrospecting with deep emotion the heroic path traversed by the Korean People's Army over the last 20 years and its brilliant exploits, we feel boundless happiness and pride of having you, the Leader of the 40 million Korean people, peerless patriot of our nation, national hero, ever-victorious, iron-willed commander and one of the outstanding leaders of the international communist movement and working-class movement, as our great Leader, and we are overwhelmed with infinite feeling of respect and adoration for you.

In the darkest days of the Japanese imperialist rule the name of Korea remained thanks to the anti Japanese armed struggle organized and waged by you, the respected and beloved Leader, and after Liberation the Korean people have been able to have their great Party, their people's power and their revolutionary armed forces thanks to its glorious revolutionary traditions.

And today Korea has earned a great world wide fame as a country of hero, the country of Chullima, as you, respected and beloved Leader, are standing at the head of the Korean people.

The great image of you, the respected and beloved Leader, who mowed down Japanese aggressors by pre-eminent commanding art and resourceful tactics and after Liberation beat the U.S. imperialist aggressors by leading the Korean People's Army and people and has created the miracles of the present times in the northern half of the Republic, is now powerfully grasping the hearts of the entire South Korean people.

Even under the dark rule of the U.S. imperialists and their lackeys, the South Korean people are visualizing the bright future road, looking up to you, the sun of our nation, and even in the undescribable non-rights and poverty are convinced of the happiness of the morrow, seeing the Democratic People's Republic of Korea, their genuine fatherland prospering and developing under the leadership of you, the respected and beloved Leader, as the beacon of hope.

Then the message referred to the fact that the South Korean revolutionaries and people whose hearts are burning with the revolutionary ideas of Marshal Kim Il Sung, the great Leader, and who take them as the compass in their struggle, have been waging an undaunted struggle against the U.S. imperialists and the puppet clique and for the rights to existence and democracy and the independent unification of the country and the underground activities of the South Korean revolutionaries are growing in strength and their ranks are steadily expanding and developing.

The congratulatory message said:

The armed guerrilla struggle sweeping all parts of South Korea is a patriotic struggle of justice for smashing the military fascist suppression by U.S. imperialism and the Pak Jung Hi clique, preserving and accumulating the revolutionary forces and for expediting national liberation and the unification of the fatherland.

The armed guerrilla struggle of the South Korean revolutionaries and patriots, uniting and closing its ranks, is rapidly expanding and developing, and it makes the enemy tremble with fear and uneasiness and encourages the struggle of the people and their confidence in victory.

The U.S. imperialists and the Pak Jung Hi clique are perpetrating savage suppression against the revolutionaries and patriots, raising malicious "anti-communist" clamours, in an attempt to stave off even a little their doom already sealed.

They condemned South Korean revolutionaries and patriots to capital and heavy penalities by faking up what they called the "case of the Medical College of Kyongbook University," "case of the Operative Group for Communizing South Korea," "case of the People's Revolutionary Party" and the like and, on the other hand, are running wild to arrest the armed guerrilla activities by mobilizing huge means of suppressive machinery.

And the U.S. imperialists and the Pak Jung Hi clique are further intensifying military provocations against the northern half of the Republic along the Military Demarcation Line and on the sea and in the air and are kicking up more frantic war rackets in connection with the incidents of the U.S. imperialists' armed spy ship "Pueblo" which was seized recently by self-defence measure of the Korean People's Army when it made a brigandish intrusion into the territorial waters of the Republic.

But neither the desperate machinations of the enemy nor difficulty and trial can dampen the burning aspiration of the South Korean people for freedom and liberation or turn us away from the road of revolution, the road of the anti-U.S. struggle.

The revolutionary struggle we are waging reflects the lawful demand of the social development in South Korea and is a just cause embodying the vital interests of tens of millions of people in South Korea.

We have the seasoned leadership of you, respected and beloved Leader, peerless patriot and the greatest Marxist-Leninist of our times, and our struggle is also inspired by the glorious revolutionary traditions of the anti-Japanese armed struggle that won victory over the armed-to-the-teeth Japanese imperialists, defying all difficulties and hardships.

We will make all our efforts to promote the revolutionary cause in South Korea by winning maximum time under the prevailing situation.

We will arm ourselves firmly with your great revolutionary ideas, the only guiding compass for the revolution throughout Korea, and will fight on, without the slightest vacillation, to embody them in the South Korean realities.

Whole-heartedly upholding the teaching of you Leader that **"a people can win freedom and liberation only through their own struggle,"** we will step up in every way all forms of struggles—political struggle and economic struggle, violent struggle and non-violent struggle, lawful struggle and unlawful struggle, etc.

Through an active struggle we will grow and temper the revolutionary organizations, expand and consolidate mass organizations and form an anti-U.S., national salvation united front of the people of all strata with the worker-peasant alliance as its core under the leadership of the working class, so as to continuously increase and develop the revolutionary forces.

Thus, we will deal successive blows to the U.S. imperialists who are floundering in quandary everywhere in the world, and to their lackeys and drive them into the pit of ruin through a nation-wide resistance struggle against U.S. imperialism and for national salvation and hasten the glorious day when all the 40 million Korean people will enjoy happiness and prosperity to their hearts' content in the bosom of a unified fatherland under the leadership of you respected and beloved Leader, the sun of the nation.

Vice-Premier Refutes Allegation of Puppet Pak Jung Hi

Over South Korean Armed Guerrilla Struggle, "Pueblo" Incident

The U.S. imperialists' reptile press these days is giving wide publicity to a so-called "interview" of an American correspondent with puppet Pak Jung Hi concerning the armed guerrilla struggle of the patriotic people in South Korea and the seizure of the U.S. imperialists' armed spy ship "Pueblo."

Puppet Pak Jung Hi alleged that the armed guerrilla struggle of the patriotic people in South Korea was caused by "infiltration from the North" and ranted about taking what he called "retaliatory steps" with regard to this armed guerrilla struggle and the incident of the seizure of the "Pueblo."

Answering questions put by a KCNA reporter, in this connection, Pak Sung Chul, vice-Premier of the Cabinet, stated as follows on Feb. 17:

That the U.S. imperialists, as widely known in the world, infiltrated the armed spy ship "Pueblo" deep into the territorial waters of our side to commit hostile acts and have launched a groundless slander campaign against our Republic in connection with the righteous armed guerrilla struggle being waged by the patriotic people of South Korea, is all a link in the chains of the U.S. imperialists' premeditated manoeuvres for unleashing another war in Korea.

To cover up these criminal machinations the U.S. imperialists stage-managed the so-called "press interview" with puppet Pak Jung Hi. Here puppet Pak Jung Hi argued that the danger of a new war created in Korea today resulted from "threat from the North," describing the armed guerrilla struggle of the South Korean people and the seizure of the U.S. imperialists' armed spy ship "Pueblo" as a so-called "aggressive act of North Korea." But the extremely-strained situation and the danger of a war breaking out again in Korea today are entirely attributable to the aggression and war provocation acts of the U.S. imperialists and the Pak Jung Hi clique. This is clearly evidenced, among other things, by the fact that the military provocations of the U.S. imperialists have increased in a planned way and sharply since the trip of Johnson, boss of the U.S. imperialist war maniacs, to South Korea in October 1966 and the Pak Jung Hi puppet clique, in step with this, are strengthening the "war-time posture" all over South Korea, clamouring more noisily than ever before about what they call "unification by prevailing over communism."

"Unification by prevailing over communism" is a rehash of "unification through march north" loudly advocated by puppet Syngman Rhee in the past and it is meant to abolish the socialist system established in the northern half of the Republic and turn the whole of Korea into a colony of U.S. imperialism.

Thus, the U.S. imperialists and the South Korean puppet clique perpetrated large-scale armed raids on scores of occasions in the period from October 1966 to January this year alone in violation of the Armistice Agreement. To take the case of July 16, 1967, as an instance, more than 170 U.S. imperialist aggressor troops mounted an armed attack on the area of our side for 13 hours. In this period they fired a total of over 145,700 shells and bullets into the portion of our side. This is roughly 17 times the number of shells and bullets fired in the 13 years up to September 1966 following the armistice. In this period, the U.S. imperialists and the Pak Jung Hi clique also infiltrated scores of groups of espionage and subversive elements into the area of our side and attempted subversive acts against our people by using various explosives, poison and weapons. From October 1966 to January this year, cases of infiltration of naval vessels into the territorial waters of our side by the U.S. side number over 300. This is half the number of cases of naval infiltration in the 13 years after the armistice. They perpetrated provocative attacks on our peaceable residential quarters and kidnapped many fishing boats and fishermen. Who is the prime mover of all these provocative, hostile acts if not the U.S. imperialists? To cover up these grave crimes of theirs, the U.S. imperialists deny their armed raids after perpetrating them and deny their infiltration of espionage and subversive elements after they dispatched them. To delude the people's attention, they fire a few bullets themselves and continue to make a false report that our side raided. But the gangster-like logic of the U.S. imperialists and their stooges reversing black and white and the true colour of their aggressive crimes are being fully laid bare by stark facts. Armed clashes and hostile acts in Korea have always been provoked by the U.S. imperialists and the South Korean puppet clique.

To take the sinking of the "escort boat No. 56" of the U.S. side in January 1967, as an instance, it intruded into the coastal waters of our side and perpetrated bombardment, which compelled the coastal battery of our People's Army to take self-defence measures. It was not that we went somewhere and showered fire upon them. As for the recent seizure of the U.S. imperialists' armed spy ship "Pueblo," it infiltrated into our territorial waters and perpetrated piratic acts in a brigandish way, against which the naval unit of our People's Army took determined self-defence measures. It was not that we went to the sea off the United States and kidnapped that ship.

Look also at the development of the situation following the seizure of the armed spy ship "Pueblo." The U.S. imperialist aggressors who perpetrated the criminal aggressive acts are massing a large number of armed forces along our eastern and western coasts and in South Korea and raising frantic war clamours.

Between Jan. 24 and Feb. 12 alone, the U.S. imperialist aggressors mobilized many heavy and authomatic weapons and fired more than 3,670 shells and bullets into the area of our side on 56 occasions and are incessantly stepping up various provocative acts such as armed raids and the infiltration of military planes. On Feb 16, armed ships of the U.S. imperialist aggressor troops again intruded into the sea off the western coast of our side and fled after attempting hostile acts.

The above-mentioned facts make it clear from where the danger of war comes in Korea. Everything originates from the aggressive acts of the U.S. imperialists and the South Korean puppet clique.

As for the recent incident in which an armed guerrilla unit of the South Korean people marched up to a point near the house of the puppet "president" and had a firing engagement and the struggle of the armed guerrilla units active in different parts of South Korea, this is the patriotic revolutionary struggle of the South Korean people themselves who rose up against the U.S. imperialist aggressors and a handful of traitors of South Korea, their stooges.

Unable to endure any longer the harsh fascist dictatorship of the U.S. imperialists and the South Korean puppet clique, the South Korean people are valiantly fighting with arms in hand to overthrow the colonial ruling system of U.S. imperialism with the firm conviction that they must rise and fight rather than sit and die.

Where there are exploitation and oppression, there is the revolutionary struggle of the people. This is the rule.

As Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, said clearly, **"the fascist tyranny by the U.S. imperialists and their hirelings in South Korea is merely leading to the further awakening and steeling of the South Korean people and to the strengthening of the revolutionary forces that will eventually sweep away the colonial system of the U.S. imperialists."**

No one eles is to blame for the current crisis in South Korea: It is the outcome of the aggression and colonial rule of U.S. imperialism.

The U.S. imperialists and the Pak Jung Hi clique can not cover up this stark fact with an "anti-communist" campaign camouflaged with the din about "infiltration from the North."

As for the twaddle of puppet Pak Jung Hi on taking what he called "retaliatory steps," this reminds one of a puppy which knows no fear of a tiger.

As made clear in the above, the very criminal who is playing with fire today is none other than the U.S. imperialists and the South Korean puppet clique. Therefore, it is totally out of the question for them to talk about "retaliation."

Yet, puppet Pak Jung Hi ranted that "retaliation has so far been reserved" at the "request of the U.S. Government" and "a stern retaliatory measure should be adopted, as it is not yet late."

And he added that "this, however, will not cause a new war." This vividly shows the attempt of the U.S. imperialists to justify the occupation of South Korea by U.S. imperialist aggressor troops by creating the impression that they dissuaded its stooges from war acts, and indicates that they are zealously plotting a new war behind this screen.

This deceptive farce staged by the U.S. imperialists through their lackey is a trite ruse unveiled long ago, and no one will be deceived by it.

Today, all the acts of the Pak Jung Hi clique are committed entirely under the control and at the instigation of the U.S. imperialists. If the U.S. imperialists and their stooges think they would go without receiving a counter-blow for their "retaliatory act," this would be a foolish dream and cheap self-deception.

Who would take it lying down if they, who were the first to perpetrate acts of piratic aggression and provocation, chose to venture a so-called "retaliatory act" for the deserving self-defence action against them.

As Comrade Kim Il Sung said, **"our people and People's Army will return retaliation for the 'retaliation' of the U.S. imperialists, all-out war for all-out war."** If the U.S. imperialists and the Pak Jung Hi clique dare attempt any "retaliatory act," it will in itself mean the start of a war.

U.S. imperialism and its stooges should look straight at the reality and act with discretion.

Whether a new war breaks out in Korea or not entirely depends on the attitude of the U.S. imperialists and their stooges.

The more the U.S. imperialists resort to threat and blackmail and war racket, the more it will complicate the present situation, and if there is anything for them to get from this, it will be only corpses and death. (KCNA)

More Fertilizers Supplied to Countryside

Members of the Kim Soo Heui Chullima Work Team, the Bongoong Chemical Complex overfulfilling their daily quotas in production to send large quantities of agricultural chemicals to the socialist countryside, wholeheartedly upholding the great 10-point Political Programme of Marshal Kim Il Sung, the great Leader of the 40 million Korean people

Intensified War Moves After "Pueblo" Incident

U.S. Imperialism May Ignite Another War Of Aggression in Korea at Any Moment

"All the recent developments show that a war may be waged again at any moment in our country by U.S. imperialism." (Kim Il Sung)

Taking advantage of the "Pueblo" incident, the U.S. imperialists openly embarked upon the road of intensified war provocations in Korea, by dispatching to the peaceful East Sea the noisy main force of the "most powerful" 7th Fleet including nuclear-powered aircraft carrier Enterprise and the conventionally-powered aircraft carrier Ranger and the anti-submarine carrier Yorktown.

These ever more undisguised, reckless war moves of the U.S. imperialists have forcibly raised the already tension-packed situation in Korea and the Far East to the most dangerous boiling point.

The treacherous war-igniter U.S. imperialists frantically tried to "blackmail" the Korean people into capitulation and solve the "Pueblo" incident by armed force, bluffing "retaliatory measures."

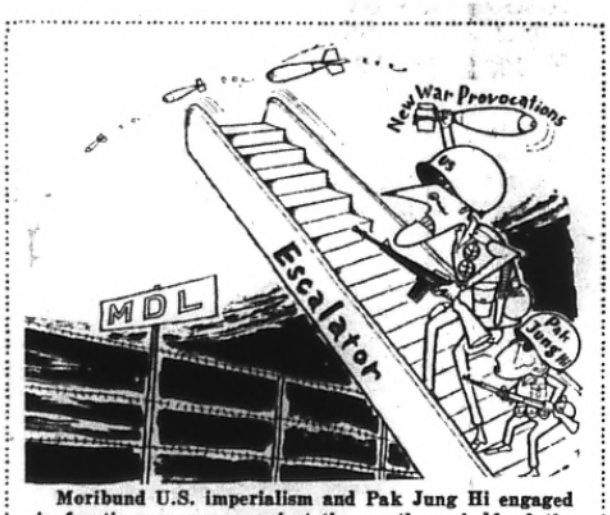
In addition to these 30 add naval vessels of the 7th Fleet now cruising in the East Sea, taking an attack position, a number of squadrons of U.S. imperialist jet fighter-bombers capable of carrying nuclear bombs flew into South Korea from Okinawa, Japan and the U.S. Mainland, in a desperate attempt to increase "blackmail" against the Korean people and boost combat readiness for an imminent full-scale assault upon the northern half of the Democratic People's Republic of Korea.

As a major step toward unleashing another aggressive and self-destructive war in Korea, the so-called "B-52" bomber force in the Far East has been beefed up with an additional assignment of "B-52"s to Okinawa and Guam which have been major staging bases for the "B-52"s, bringing the number of the bombers in the area to around 70.

At the same time the war-maniac U.S. imperialists ordered their aggressive armed forces in the Far East and the Western Pacific area to be in "full alertness" for all-out invasion into the northern half of the Republic and called up their aggressive reserve forces on a large scale, together with the instant switch of the 600,000-man South Korean puppet army to a war footing.

Under the treacherous pretext of "countering communist threat," the traitor Pak Jung Hi clique announced on Feb. 5 a plan to put the 2,500,000-man puppet reserve force under arms and a plan to produce weapons and ammunition domestically, on the orders of U.S. imperialism.

Timed with this, war-manic Johnson on Feb. 8 declared an additional military assistance worth of 100 million dollars to South Korea, bringing the total of military "aid" to South Korea for this year to 300 million dollars.



Moribund U.S. imperialism and Pak Jung Hi engaged in frantic war moves against the northern half of the Democratic People's Republic of Korea

In order to vigorously press ahead with the war provocations, Cyrus Vance, "presidential envoy" flew into South Korea and stayed there from Feb. 11 to 15 to work out concrete war plans against the northern half of the Republic and administer a strong camphor shot into the arm of the Pak Jung Hi clique who were terrified and petrified by the raging armed guerrilla struggle of the South Korean revolutionary and patriotic people.

Vance's war junket reminded us of that of warmonger Dulles to Seoul just 18 years ago before the U.S. imperialist ignition of the aggressive Korean War.

His trip was immediately followed by war executor Beach, Commander of the U.S. Army in the Pacific who arrived on Feb. 21 in Seoul, the den of reaction and puppets, to draft operational plans in an aggressive war against the northern half.

U.S. imperialism and their stooges Pak Jung Hi clique decided on Feb. 16 on extension of the 30 month-long military service of the puppet army to three years, while extensively reinforcing their armed forces with new type weapons and nuclear weapons.

After stepping up their war preparations on a large scale unprecedented, the U.S. imperialists and the Pak Jung Hi clique launched a series of "landing exercises" and "firing drills" in the East Sea under the imaginary conditions of carrying out landing operations on the coasts of the northern half.

While boosting their combat readiness and switching all their armed forces available to a war footing, the desperate U.S. imperialists and the Pak Jung Hi clique madly tried to provoke a new war by intensifying their criminal military provocations along the narrow strip of the DMZ-turned battleground.

Ignoring all the repeated warnings and protests of the Korean people, the U.S. imperialists and the Pak Jung Hi clique massed their troops along the DMZ and off the western and eastern coasts, mobilizing airplanes, naval vessels and heavy tanks.

In the period from Jan. 24 to Feb. 19, the U.S. imperialists slammed a total of over 9,200 shells and bullets from heavy and automatic weapons into the territory of the northern half across the DMZ on 93 occasions—a daily average of 354 shells and bullets.

In this period they mounted armed attacks on the posts of the Korean People's Army on three occasions, infiltrated aircraft into the air space of the northern half on two occasions and dispatched armed boats to the western shore of the northern half to conduct highly provocative acts.

In preparation for armed attacks on the posts of the KPA, the U.S. imperialists illegally brought into the DMZ six artillery pieces including 106.7 mm mortars, five M-47 heavy tanks and light fire arms of various types from Jan. 30 to Feb. 10.

They also moved into the DMZ 88.9 mm anti-tank rocket launchers

Their war provocative maneuvers are not new.

From the very moment of the ceasefire in the Korean War, the U.S. imperialists have made persistent attempts to resume hostilities in Korea by committing criminal military provocations against the northern half- and by bringing into South Korea large quantities of new type mass-destructive weapons including tactical nuclear weapons, in systematic violation of the Armistice Agreement.

The U.S. imperialists have intensified sharply their criminal military provocations against the northern half since the sabre-rattling visit of war-monger Johnson to Seoul in October 1966.

In the past year alone, the U.S. imperialists pumped into the northern half across the DMZ on 540 occasions over 125,000 bullets, five times the total number fired in the past 13 years from the end of the war and 1,270 shells, 91 times the number fired in the same period, turning the narrow strip of the DMZ into a battleground.

During last year, U.S. imperialist naval vessels and armed spy ships violated the territorial waters of the DPRK on over 140 occasions.

Indeed, the U.S. imperialists made a staggering number of over 8,000 violations of the Armistice Agreement last year.

Today, making their death-bed final attempt to impose a second Korean War upon the Korean people and expanding the flames of war from Vietnam to Korea, the moribund U.S. imperialists, the sworn enemy of the Korean people, are foolishly hoping to bolster their colonial terrorist rule in South Korea disintegrating in the face of the currently raging anti-U.S., national salvation struggle including armed guerrilla struggle, waged by the South Korean revolutionary and patriotic people, and find a way out from their repeated grievous setbacks they have suffered in their war of aggression in Vietnam.

Owing to the U.S. imperialists' sharply intensified military provocations against the northern half and their shameless, grave "blackmail" against the Korean people, the situation in Korea and the whole of Asia has become and is increasingly delicate and explosive to a point where a U.S. imperialist war of aggression may break out at any moment, critically menacing peace in the areas as a whole.

The U.S. imperialists must not run wild and realize to whom they are opposed.

With no war provocation or "blackmail" can the agonized U.S. imperialists frighten or conquer the determined Korean people who have risen as one to safeguard their sovereignty and national honour and socialist fatherland, and to further the unification of the fatherland.

The heroic Korean people and their Korean People's Army, fully combat-ready, will instantly return retaliation for "retaliation" and all-out war for "all-out war" if the U.S. imperialists dare make reckless assault upon them.

Ex-S. Korean Puppet Sergt. Goes Over to North

A former South Korean puppet army soldier came over to the northern half of the DPRK some time ago, casting aside the disgraceful life of the puppet army, according to information from Pyongyang.

This youth who has been embraced in the warm bosom of the Republic guided by Marshal Kim Il Sung, the great Leader of the 40 million Korean people whom he longed for, awake or asleep, is Song Chang Suk, 29, former senior staff sergeant (sergeant first class) of the Intelligence Section of the 36th Regiment, 5th Division, 5th Army Corps of the South Korean puppet army.

S. Korean People in Action

A report from Seoul said, over 30,000 railway workers throughout South Korea which was terrorized by the U.S. imperialists and the Pak Jung Hi clique, on Feb. 15 decided to carry out their five-point demand including wage hike and payment of various allowances after a long struggle.

That day, their representatives held a meeting of the "struggle committee" in Seoul and denounced the Pak Jung Hi clique for their dirty crafty trick by which the traitor clique tried to sow the seeds of discord among the strikers.

Several hundred South Korean workers hired at the U.S. imperialist aggressor army organ in Boopyung district, Kyonggi Province, rose up on Jan. 16 in the struggle against national insult and inhumane exploitation by the Yankee aggressors, according to a South Korean paper.

Forced to guard the "supply centre" there, one of the military bases of the U.S. imperialist aggressors, the workers had long fought stubbornly against national humiliation and persecution by the enemy Yankee scoundrels.

The workers set up a "struggle committee"

More than 1,000 citizens held recently a rally at the campus of Cheju University and formed a "struggle committee," in firm opposition to the plan of the U.S. imperialists and the Pak Jung Hi clique to expand the military airfield in the island.

They strongly demanded an immediate end to the work on the expansion of the military airfield.

A report from Seoul said, 300 girl students at Dongmyung Girls' High School in Seoul forcibly sat down on Feb. 22, in the campus, demanding expansion and improvement of the school facilities.

They unanimously accused the school authorities of demanding exorbitant fees and being ignorant of improving facilities.

Democratic, National Rights of Koreans Here Should Be Defended

EDITORIAL

The U.S. imperialist aggressors are now making desperate efforts to trigger a new war in Korea and in keeping with this, the Pak Jung Hi clique are hell-bent on their preparations for another war, raising "anti-communist" hurly-burly.

Meanwhile, the Japanese militarists who are strengthening their reinvasion of South Korea, taking active part in this move, are more undisguisedly revealing their hostile policy against the Democratic People's Republic of Korea while consolidating their tie with the Pak Jung Hi bandits, and are doing everything in their power to deprive Korean citizens in Japan of democratic and national rights and to destroy CHONGRYUN (the General Association of Korean Residents in Japan).

No sooner had the U.S. imperialists staged more desperately than ever before new war provocative manoeuvres in Korea, than the Japanese Government unilaterally brought to a rupture on Jan. 24 the Colombo Korea-Japan Red Cross talks held to discuss the repatriation problem of Korean residents in Japan, and is dead-set on passing through the present regular Diet the bill for "Foreigners' School System" which it failed twice in the past to railroad through the Diet because of strong opposition by public opinion in Japan and abroad. At the same time, it is persistently preventing Korean University from being legally recognized.

Furthermore, the Japanese Government is making no bones about trampling underfoot the DPRK citizenship, human rights and right to existence of Korean residents in Japan and suppressing Korean traders in a terrorist way.

We cannot think of this apart from the moves of the Japanese militarists to reinvade South Korea by positively participating in the U.S. imperialists' manoeuvres for aggression and new war provocation. This can be found in the fact that Japanese Prime Minister Sato said on Jan. 30 in the Diet that "the Pueblo was caught on the high seas" to support the U.S. imperialists and that he had the face to declare that South Korean armed guerillas "invaded South Korea coming across the 38th Parallel from North Korea, thus violating the Armistice Agreement."

These remarks by Prime Minister Sato brought to light the real nature of Japanese militarism as it is.

The machinations of the Japanese Government to suppress Korean citizens in Japan have been more and more undisguised since the Japanese militarists openly embarked upon the road of reinvading South Korea with the backing of U.S. imperialism and with the Pak Jung Hi clique as their guide since the conclusion of the criminal "ROK-Japan Treaty."

In particular, since the second half of last year, the suppression of Korean citizens here has been more malicious and heinous.

Last autumn the Japanese "Self-Defence Forces" conducted "shooting practice" aiming at Korean University as an "imaginery enemy" and in the wake of this, the Japanese authorities cooked up a "North Korean spy case," and the Metropolitan Police Office and the Tax Administration Agency made a piratic surprise raid upon the Tonghwa Credit Association in broad daylight.

This is an unmistakable expression of the hostile policy against the DPRK and a criminal act against Korean compatriots in Japan.

The struggle of Koreans here to defend the citizenship of the DPRK and their national rights is the sacred struggle to safeguard sovereignty and national dignity.

The struggle of Koreans here to protect the democratic and national rights is part of the struggle to oppose the U.S. imperialist war policy.

The ulterior motive of the Japanese Government in all these maneuverings is to deprive Koreans here of the DPRK citizenship and the democratic and national rights, undermine the unified strength of CHONGRYUN fighting for the promotion of independent unification of the fatherland and lead Koreans here to support the aggressive and war policy of the U.S. imperialists and the Pak Jung Hi clique.

All the Korean residents in Japan will firmly defend the democratic and national rights by stubbornly fighting uncompromisingly with those who are trying to infringe upon their legitimate rights.

Korean citizens in Japan will, arming themselves with the unitary ideas of Marshal Kim Il Sung, the respected and beloved Leader, and the revolutionary traditions, defend the DPRK citizenship, the rights to national education and repatriation and other democratic, national rights and fight to promote the independent unification of the country.

The 600,000 Korean residents in Japan are full-fledged overseas citizens of the DPRK enjoying the legal protection of the Nationality Law of the DPRK.

In the light of the historical background and in view of international law and international practices, the Japanese Government bear legal and moral responsibility for ensuring democratic and national rights for Korean citizens in Japan.

Despite this, the Japanese Government is going all-out to suppress the democratic and national rights of Koreans here and force humiliation upon them. This is absolutely unjustifiable.

The struggle to defend the rights to national education and repatriation is at present posed as pressing task.

We Korean residents in Japan will strengthen the just struggle to safeguard their democratic and national education and the route of repatriation.

We will resolutely oppose the scheme of the Japanese Government to pass the bill for "Foreigners' School System" designed to suppress the national education of Koreans here and fight to have Korean University recognized at once.

We will thoroughly expose the unjustifiable attitude of the Japanese Government which unilaterally ruptured the Colombo talks and forcefully fight to the last, strongly demanding that the Japanese Government continuously guarantee the repatriation operation so long as there are Koreans desirous of returning home.

No force can hold in check the just struggle of Koreans here.

Premier Kim Il Sung, the great Leader of the 40 million Korean people said:

"No suppression and persecution whatsoever by the Japanese authorities can check the just struggle of the Korean citizens in Japan for their democratic, national rights and for the unification of the fatherland. The persecution and suppression being intensified every day by the Japanese authorities against the Korean citizens in Japan will only arouse still greater national indignation on the part of the entire Korean people, and this unjust act will be checked after all."

Korean residents in Japan are under the wise leadership and in the warm care of Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious, iron-willed commander and one of the outstanding leaders of the international communist movement and international working-class movement.

Let alone the entire Korean people in the homeland, broad sections of the Japanese people and the good-minded people of the world are extending active support and encouragement to Koreans here in their just struggle for the democratic and national rights and the unification of the fatherland.

We strongly demand again that the Japanese Government discontinue its suppressive and persecution policy against Koreans here and ensure all the democratic and national rights for them.

We wholeheartedly call on the people of the world to file protests with the Japanese Government against its suppression of Koreans here and to render unqualified support to them.

Jap. Gov't Bent on "Foreigners' School System"

It is now unmistakably obvious that the Japanese Government is making another attempt to submit the "Foreigners' School System" bill to the current regular Diet session which is to continue until May 24, ignoring all their past failures to do so in the face of the resolute opposition of the Korean and Japanese peoples and the fair-minded world public.

On Jan. 4 Japanese Prime Minister Sato declared at a news conference, "The Government is planning to submit the bill for instituting the 'Foreigners' School System' to the current regular Diet immediately after completion of the work on drafting the bill."

On Jan. 13, Fukuda, Secretary General of the ruling Japan Liberal Democratic Party, aired the same view, and on Jan. 19, reaffirmed the plot of the Japanese Government to submit the bill in question to the Diet for approval by mid-March at the latest.

Since the regular Diet session was resumed on Jan. 27, the Japanese Government has been watching for an opportunity of railroading the bill through the Diet.

Particularly noteworthy here is the open and undisguised manner in which the Japanese Government is handling the notorious suppressive bill which is to all intents and purposes designed to suppress and uproot the democratic, national education of Korean citizens in Japan and impose "Japanization education" upon their sons and daughters who should naturally be brought up and educated as able nation-builders of their fatherland.

The treacherous, evil political motive of the Japanese authorities was disclosed for all to see in the beginning of December last year when Japanese Education Minister Nadao clamoured, "We will have to pass the 'Foreigners' School System' bill through the Diet by all means, inasmuch as the matter is a natural consequence of the 'Japan-South Korea Treaty,'" and "Korean University shall not be legally authorized as a miscellaneous school."

This determination of the Japanese Government stems from its close tie-up with the South Korean Pak Jung Hi puppet clique.

In the lurid light of the gravity of the situation prevalent in Korea and the Far East due to the intensified military provocations of U.S. imperialism and the Japanese militarists' support for the U.S. policy in Korea, the latest attempt to submit the bill to the current Diet is part of the policy of national discrimination and persecution pursued by the Japanese Government against the Korean citizens in Japan.

6,500 Koreans Meet to Defend Democratic, National Rights

Over 6,500 Koreans from Tokyo and its neighbouring prefectures on Feb. 21 held a Central Meeting to Defend the Rights to National Education and Repatriation of Korean Citizens in Japan at the Hibiya Open-Air Amphitheatre, Tokyo.

Li Kye Baik, Chairman of the Committee for Measures for National Education and Repatriation made a report at the meeting.

The meeting unanimously adopted a letter addressed to the respected and beloved Leader.

It also adopted a written petition addressed to the Japanese Government.

The meeting was followed by a petition march to the Diet and a street parade of all the participants.

DPRK Foreign Office Issues Statement:

Denounces U.S. Imperialist Atrocities in S. Vietnam

PYONGYANG, Feb. 10 (KCNA) —The Foreign Ministry of the Democratic People's Republic of Korea issued a statement today denouncing the U.S. imperialist aggressors who, having sustained serious defeats one after another under the heavy blows of the South Vietnam People's Liberation Armed Forces and people, are perpetrating ever more bestial homicidal atrocities in South Vietnam.

The statement reads in full:

The U.S. imperialist aggressors, having sustained serious defeats one after another under the heavy blows of the South Vietnam People's Liberation Armed Forces and people, are perpetrating ever more bestial homicidal atrocities in South Vietnam.

Since Jan. 31 last, the U.S. imperialist aggressors have killed or wounded a large number of people and destroyed buildings by bombing and shelling bestially and indiscriminately and spraying poison gas over the populated quarters of Saigon and many other cities, provincial and district capitals.

They are also scheming to bring to trial and execute many patriots in Saigon, Cholon and other cities.

Such barbarities of the U.S. imperialists in human skin are towering crimes against the Vietnamese people and, at the same time, an open challenge to the world people opposing the U.S. imperialist war of aggression in Vietnam and a most wanton infringement on the norms of international law and human morality.

The Government of the Democratic People's Republic of Korea and the entire Korean people express surging indignation at the homicidal atrocities of the U.S. imperialists against the Vietnamese people and vehemently condemn them.

Recently the South Vietnam People's Liberation Armed Forces dealt a telling blow to the U.S. imperialists and their henchmen Thieu-Ky clique by launching an all-out attack on Saigon and nearly all other cities in the enemy-occupied areas and the enemy's military bases and won brilliant victory. Synchronising with this, the people, patriotic forces, national and peace-loving forces in the enemy-occupied areas rose in revolt and inflicted a heavy defeat upon the enemy, and seized many cities and rural areas.

This is a new, great victory won by the gallant South Vietnamese people in the sacred war of resistance against U.S. imperialism and for national salvation.

The U.S. imperialist aggressors, driven into serious confusion and predicament by the all-out, simultaneous offensive of the South Vietnam People's Liberation Armed Forces and the massive uprising of the patriotic people, are intensifying the homicidal war in South Vietnam, while resorting to the desperate machinations to further escalate the war against the Democratic Republic of Vietnam behind the shameless signboard of "peace negotiation."

With no bestial atrocity and "peace negotiation" hoax, however, can U.S. imperialism recover from the heavy military and political defeats it is sustaining in Vietnam or stem the surging tide of revolution sweeping South Vietnam.

The more the heroic Vietnamese people fight, firmly taking the initiative in the war, the stronger they grow and they are continuously meting out irrevocable punishment to the U.S. imperialist aggressors and the puppet clique.

The Government of the DPRK and the entire Korean people fully support the statement of the spokesman of the Central Committee of the South Vietnam National Front for Liberation, dated Feb. 4, 1968, and the statement of the Foreign Ministry of the Democratic Republic of Vietnam, dated Feb. 5, 1968, which exposed and denounced resolutely the barbarous criminal acts of the U.S. imperialists and expressed the firm determination of the North and South Vietnamese people to deal a hundred-fold, a thousand-fold heavier retaliatory blow to the enemy.

The Korean people who regard the U.S. imperialist aggression against Vietnam as against themselves are fully prepared to fight shoulder to shoulder with the Vietnamese people at any time requested by the Vietnamese brothers.

The Korean people will, in the future too, as in the past, do everything in their power to actively assist the Vietnamese people in their righteous struggle against U.S. imperialism and for national salvation and fight to the last hand in hand with the Vietnamese people in the common struggle against U.S. imperialism.

U.S. imperialism must take its blood-stained hands off Vietnam at once.

The wilder the U.S. imperialists run, only the sooner their ruin will come.

The U.S. imperialist aggressors must stop definitively and unconditionally all acts of war against the Vietnamese people and pull out of South Vietnam forthwith, taking their aggressor troops, the troops of their satellite countries and all the lethal weapons.

S. Vietnam People Severely Beat U.S. Aggressors

By launching wholesale attacks on Saigon and almost all other cities in the enemy-occupied areas, the heroic South Vietnam people and People's Liberation Armed Forces are dealing heavy blows to the U.S. imperialist aggressors and their stooges and are driving them deeper into a quandary in a brief space of these months.

They firmly hold the initiative in the war in all areas, meting out a severe punishment to the Johnson clique who are running wild to escalate the aggressive war behind the smoke-screen of the "peace" hoax and demonstrating once again their unshakable determination to fight to the end against the U.S. imperialist aggressors and their stooges.

Especially, during the repeated wholesale attacks starting on Jan. 30 and the recent attack of the People's Liberation Armed Forces, the people and patriotic forces, national and peace forces in the enemy-occupied areas and patriotic officers and men in the puppet army fought on the side of the liberation forces.

The People's Liberation Armed Forces annihilated about 1,000 enemies during Jan. 7 to 22 in Quang Tri. In Thua Thien Province, the People's Armed Forces smashed about 700 enemies during Jan. 7 to 11, and at the beginning of January guerrilla units in Kuchi county put out of action 133 enemy troops.

The heroic People's Liberation Armed Forces launched terrible attack on main cities all over South Vietnam and on the U.S. imperialist aggressors' air bases on Jan. 30, and they also occupied U.S. imperialist aggressors' Embassy temporarily.

Early on Feb. 18 the South Vietnam People's Liberation Armed Forces launched again a large-scale attack on over 30 parts of the U.S. aggressors' air bases and South Vietnam war front bases and on 47 enemy-occupied cities, driving the enemy into a more hopeless predicament.

Meanwhile, they attacked Tan Son Nhut Air Base in Saigon for the third time with rockets and several times hit the vicinity of Commander Westmoreland's headquarters.

On the other hand, the revolutionary armed forces and people in the city of Hue are defending the city for almost three weeks against the enemy's attacks.

They killed or wounded over 450 U.S. imperialist aggressor troops and their stooges who had pounced upon them, and destroyed or captured many weapons on Feb. 14 and 15.

By repulsing the enemy's attacks five times, the People's Liberation Armed Forces in Hue killed or wounded again 190 U.S. aggressors and their stooges on Feb. 18 and are still defending the city successfully.

As a result, the People's Liberation Armed Forces in Hue annihilated 1,200 enemies including 600 Yankees and soldiers of U.S. satellite countries, burning four tanks, sinking or destroying 12 warships and shooting down many aircraft.

Facts clearly prove that with no big talk or bluffing can the U.S. imperialists stave off their final defeat.

The daring and large-scale all-out attacks mounted recently by the South Vietnam People's Liberation Armed Forces on the U.S. imperialists and their stooges and the massive uprisings of the patriotic people were a new great victory for the heroic South Vietnamese people in the sacred war of resistance against U.S. imperialism and for national salvation. This was a serious political, military and moral defeat for the U.S. imperialists and their stooges and created an irretrievably acute crisis in the U.S. imperialist colonial rule in South Vietnam.

Premier Kim Il Sung, respected and beloved Leader of the 40 million Korean people said.

"The new battle exploits made by the South Vietnam People's Liberation Armed Forces and the patriotic people are of great, military and political significance in expediting the ultimate victory of the struggle against U.S. imperialism and for national salvation."

The patriotic and progressive, mighty revolutionary forces of the South Vietnamese people united close around the South Vietnam National Front for Liberation, were the main factor for the recently won great victory and a firm guarantee for ultimate victory.

Even if the U.S. imperialist aggressors and their henchmen Thieu-Ky clique run wild in war escalation against the Democratic Republic of Vietnam under the cloak of "peace discussions," they shall never escape their defeat and the Vietnamese people's righteous struggle will surely win final victory.
